UPDATE
BRONZE COMMAND

C&IP (Insp. Steve Burke)	Steve Burke	Quick update D Div Emerson, site partially cleaned up; expect to complete the clean up and depart this morning. E Div Surrey, 176 site, no remaining protestors, potential for a second convoy of 20-30 vehicles in Prince George and potentially meeting up with Kamloops group, heading to LMD - will update asap.
--------------------------	-------------	---

Protective / NCRC (Supt. Jim Efford)	Mitch Monette	Smoothing out HR processes, but happy with progress so far; may need to shuffle resources depending on upcoming PM visits, as Divisions receiving the visits will need to move members to accommodate - need some clarity and confirmation to ensure appropriate resourcing across functions.
National Div (Supt. Mitch Monette)	Mitch Monette	PMO has been advised that the PM's trip to Windsor will need to be a close-hold event; they are in agreement. Heads-up that there may be some swapping of public order units, in anticipation of needing a tactical response; note that it is a Canadian response, not a RCMP response.
C Div (Supt. Martin Roach)	Mitch Monette	As above.
	Martin Roach	HR available: 44 members for TSG, 75 almost ready for 18th to 22nd Lacolle protest: at this time, SQ has set up a command post and traffic checkpoints, but no protestors in this area as yet. In planning process for Quebec City, but intel indicates that it is unlikely to happen - need to remind provincial partners that they should come to us to facilitate communication with Ottawa.
O Div (Supt. Andy White)	Andy White	Understand PM is planning a trip to Windsor; would caution that this be a private event without publicity, significant goodwill has been built with partners on the ground with much appreciation for the C&IP elements, and any destabilization would require reassigning members back to the Windsor area. Remaining members will be in the Windsor area until Thursday.

FP Investigations (C/Supt. Sue Efford)	Sue Efford	No updates.
FP Investigations Financial Crime (Supt. Denis Beaudoin)	Denis Beaudoin	Began sharing information with financial institutions; first disclosure under Act was made with respect to a crypto platform. Shared information on transactions that will be used to prevent crypto being translated into currency. Shared more information with OPP, and are using information on 60 trucks and plate numbers with National Div to ensure they are actually participating in the protests; will then share with banks. Banks are expressing some apprehension, but believe that will be smoothed over as things progress.
RCMP Ottawa Command Assist Ops (Sul Mike O'Beirne)	Mike O'Beirne	No events of note overnight; posture remains unchanged.

 Will circulate key word list this morning for input.
 Still anticipating lots of activity, particularly when mobilization begins.

Expect anyone available operationally should be ready to go. Logistically will need support from all, so anyone who can pitch in will be needed. Should be out shortly.

Keith Finn	National call this morning for ad hoc SEC and COs across the country.
Will emphasize communications sharing platform and how to bring awareness nationally; also, management around Emergency Act – need to make sure that all reporting coming in nationally is specific and current, any reliance or reference to actions taken under the authorities of the Emergency Act, whether financial or towing, it needs to be brought in and provided in the SITREPs.	
Lots of keen interest and sensitivities around the utility of that Act, and need to document whenever that lever is being pulled.
